

An Intertape Polymer Group™ Brand

Reliable Performance in an Economical Package

An economical, reliable masking tape to meet the needs of most collision repair and refinish shops. SG™ offers an excellent balance of quick stick, panel adhesion and holding properties. Under normal temperature conditions, SG™ is the tape of choice for fast, basic service, including wet-stripping. You can count on this economically priced crepe backed masking tape for many of your everyday applications.

- ▲ Natural-colored, moisture-resistant, crepe paper tape
- ▲ Coated with a natural rubber, pressure-sensitive adhesive
- ▲ Sticks firmly and securely to most surfaces with clean removal
- ▲ Easy tear, where and when strategically required

The American® Brand – Better Solutions – That’s the American Way!

Innovation is the driving force behind American® Brand products from Intertape Polymer Group™. American Brand tapes are designed to meet or exceed the unique application needs of the automotive, marine, appliance and aerospace industries. American products have long been trusted by professionals for their unsurpassed quality and performance. But we don't rely only on our history or reputation. Our engineers continue to research and incorporate the latest breakthroughs in backing and advanced adhesive technologies.

These improvements are reflected by innovative

new product additions, consistent naming criteria and contemporary packaging. Our expanded tape product line includes the new XG™ (Extreme Grade) with state-of-the-art performance features that make it the finest automotive tape available. XG is supported by PG™ (Premium Grade,

previously PG-27), MG™ (Mid Grade, previously PG-6), SG™ (Shop Grade, previously Production Shop™)...professional tape products that master craftsmen have relied on for over 50 years. Whatever the application, American Brand provides better solutions — that's the American Way!
