

An Intertape Polymer Group™ Brand

When it Comes to Automotive Painting, **NEW XG Refinishing Tape Steers You Right.**

Get on the road to success in automotive painting with new Extreme Grade XG pressure-sensitive masking tape. With superior adhesion, UV resistance and high conformability, XG unwinds and applies smoothly, resists seepage, and removes easily to deliver clean, crisp paint lines. Plus its outstanding moisture resistance makes it ideal for wet sanding or use in humid conditions. Designed to withstand extreme oven temperatures, XG Refinishing Tape makes quick work of even the largest truck or boat repaint jobs.

Once you give new XG Refinishing Tape a try, *you're sure to stick with it!*

The American Brand – Better Solutions – That's the American Way!

Innovation is the driving force behind American® Brand products from Intertape Polymer Group™. American Brand tapes are designed to meet or exceed the unique application needs of the automotive, marine, appliance and aerospace industries. American products have long been trusted by professionals for their unsurpassed quality and performance. But we don't rely only on our history or reputation. Our engineers continue to research and incorporate the latest breakthroughs in backing and advanced adhesive technologies. These improvements are reflected by innovative new product additions, consistent naming criteria and contemporary packaging. Our expanded tape product line includes the new XG™ (Extreme Grade) with state-of-the-art performance features that make it

the finest automotive tape available. XG is supported by PG™ (Premium Grade, previously PG-27), MG™ (Mid Grade, previously PG-6), SG™ (Shop Grade, previously Production Shop™)...professional tape products that master craftsmen have relied on for over 50 years. Whatever the application, American Brand provides better solutions – that's the American Way!

Leftover adhesive residue

Many inferior tapes have surplus adhesive on the backing. Removing will leave behind residue.

Ragged or inconsistent edge

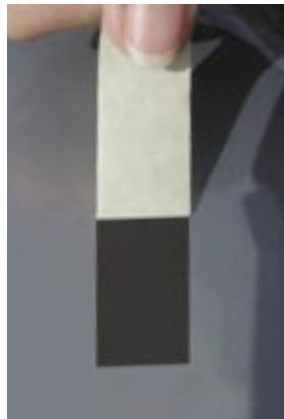

Inconsistent adhesive coating can cause poor paint edges which require time consuming re-painting.

Slivering tape

Weak or inconsistent crepe or paper backing can cause tearing or slivering of the masking tape. Wastes time **and** money!

The Solution... American's XG™ Automotive Refinishing Tape

- ▲ Transfer resistance – XG's top quality adhesive and backing delivers superior transfer and tear resistance. Provides clean removal under a variety of conditions. Always a sharp paint edge.
- ▲ Highly conformable and flexible.
- ▲ Cornering – Nothing handles curves better than XG! Its extreme conformability and increased elongation provide smooth handling. Excellent for die cutting and custom jobs.
- ▲ UV resistant.
- ▲ Solvent resistant.
- ▲ Perfect choice for wet sanding.
- ▲ Paint lines – XG's fine-structured crepe backing sets the standard, ensuring overall sharp breaklines.

| Product Number | Tape Description | Tensile Strength (lbs./in.) | Adhesion to Steel (oz./in.) | Available Widths | Thickness (mils.) | Elongation (%) | Quick Stick (oz./in.) Kraft | Quick Stick (oz./in.) Steel |
|----------------|-------------------------|-----------------------------|-----------------------------|--------------------------|-------------------|----------------|-----------------------------|-----------------------------|
| XG | Top Grade Crepe Masking | 24 | 30 | 18mm, 24mm 36mm, 48mm | 6.8 | 10 | 7 | 15 |

American® Tape Products - An Intertape Polymer Group Brand
American products are systems of related items designed around specific applications across a range of task environments. Our customers are professionals, master craftsmen in the automotive, marine, appliance and aerospace industries. We reach our customers through a highly interpersonal network of distributors who rely upon our experience and understanding about each line of trade. Our products evolve subtly and soundly to meet the ever-changing environments in which our customers perform their tasks. We ground our innovations in the vast reach and research of Intertape Polymer Group, our parent company and the high standard by which all our products are evaluated.

Intertape Polymer Group Inc. (IPG) is an acknowledged leader in the packaging industry. Leveraging its advanced manufacturing technologies, extensive research and development capabilities and a comprehensive strategic acquisition program, the company has assembled the broadest and deepest range of products in the industry.

IPG manufactures a broad range of packaging products and systems that reflect the needs of both its industrial and retail customers. These include one of the largest offerings of tape available: pressure-sensitive and water-activated carton-sealing, masking, filament, flatback, cloth duct, double-coated, high performance specialty, electrical, automotive and HVAC tapes. Additional products include shrink film and stretch film as well as carton sealing equipment, ink jet printing systems, labeling systems, engineered coated products and flexible intermediate bulk container (FIBC) industries.

Established in 1981 with headquarters in Montreal, Quebec and Bradenton, Florida, Intertape employs approximately 2,600 employees with operations in 16 locations, including 12 manufacturing facilities in North America and Europe.

Intertape Polymer Group Inc. is a publicly traded company with its common shares listed on the New York Stock Exchange (NYSE) and the Toronto Stock Exchange (TSE) under the stock symbol "ITP."
